

JPEG4U.COM ORDER FORM

The images seen on this website are digital files and will be sent to the buyer via electronic means (email or winzip).

To order a digital image: enter the image number in the "item number" box. The "item description" box can be left blank.

All digital images seen on this website can be purchased in printed form. Prints will be made from digital files on an Epson 4800 printer on genuine Epson Premium Lustre Paper. The size of the digital file will determine the maximum size of the print. Prints will be made with a print resolution setting of no less than 200 dpi.

Cost of prints:

Prints made on an 8.5 x 11 sheet of premium luster paper \$15.00

Prints larger than 8.5 x 11 \$20.00

Shipping costs are included in the above figures.

To order a print: enter "print" in the item number box and enter the print size request in the item description box along with the picture identifier.

Item number	item description	price

Total cost _____

Ohio tax (ohio residents 6.75%) _____

Total cost _____

Fine print

Digital files are “not returnable”. Nevertheless, it is my goal to deliver a quality “product” at a fair price. With that in mind, I will refund money paid if you are not satisfied with the quality of the images. This is a one time deal, so once you “cash in” on an item, further purchases will not be refundable.

Prints are returnable. If you are not satisfied with the print, the print can be returned for a full refund. An additional \$5.00 will be refunded to cover shipping **IF THE PRINT IS RETURNED IN PRISTINE CONDITION**. If the print is bent or otherwise damaged due to poor packaging or shipping, only the purchase price will be refunded.

At the current time, I am unable to offer framed prints that can be shipped. I would be happy to recommend a framing technique that is attractive and relatively inexpensive.
